### Symbols To Guide

That's Flow Game cards above. They are a most-used set of questions that I rely upon. For direction. For strategy. For deeper understanding.

That's Most Mornings and In My Nature, two of my poetry books. They guide to principles of essence. And clarity. And courage.

That's a walnut cup holding a tea candle. The cup comes from a long-time buddy. Yes, friendship guides. The relational is the answer.

That's carved wooden statues from an important trip to Korea in my mid 20s. Grandparents guide. Elders guide. Wisdom guides.

Most people are trying to sort varied issues of clarity and purpose. In self. In team. In circumstance. In community.

I continue to love guiding such paths and learning with others. With a few tools. With a few patterns. With a few intuitions.

Jump in. Whether through reading, listening, participating, or exploring some guidance together.

Greetings.
